

Friday 9th October 2026

Dear Parents and Carers,

RE:Year 11 Mock Examinations – Project Potential

As we approach our first series of Year 11 mock examinations, I would like to recognise the excellent start our students have made to the academic year. We have been incredibly proud of their positive attitude, hard work and growing determination to succeed.

The next important stage of Project Potential is our mock examination series, beginning next week. One message we have consistently shared with students is that we want to see progress from their Year 10 mock examinations. Every student has their own starting point, and these examinations are an opportunity to demonstrate how far they have come and identify their next steps towards the summer.

Attendance and Punctuality

Full attendance throughout the mock examination period is non-negotiable. We expect every student to be in school, on time and for the entire school day, not just their scheduled examinations. Lessons and revision opportunities taking place around examinations remain incredibly important and must not be missed. Please review the attached timetable with your child and ensure they are fully prepared for each day.

Support at Home

Your support throughout next week will make a real difference. Please encourage your child to check their examination timetable each evening, complete focused revision and prepare the equipment they need for the following day. A good night's sleep, a healthy breakfast and plenty of encouragement will help them approach each examination with confidence.

Support in School

We remain committed to supporting every student throughout the mock examination period. Teachers will continue to provide revision guidance, alongside targeted interventions and after-school revision sessions. We expect students to take full advantage of these opportunities, particularly where they have been invited to attend additional support.

Looking Ahead – Progress, Not Perfection

These mock examinations are an important milestone, but they are not the final destination. We are not expecting perfection, but we are expecting progress. We want every student to give their very best and demonstrate the improvements they have made since Year 10. The results will help us celebrate success, identify areas for development and

plan the next steps towards the summer examinations.

Thank you for your continued support. We have high expectations for this year group and enormous belief in what they can achieve. By working together, we can ensure every student has the opportunity to fulfil their potential.

Please find enclosed the timetable for the upcoming mock examination series.

Yours sincerely,

Mr J Mannering
